

HELOTRAC 2X™

Maintenance Management System

Sikorsky Aerospace Services

A Sikorsky Company

Wherever you are. Whenever you need it.

HELOTRAC 2X™

Introducing the NEW HELOTRAC 2X™ System

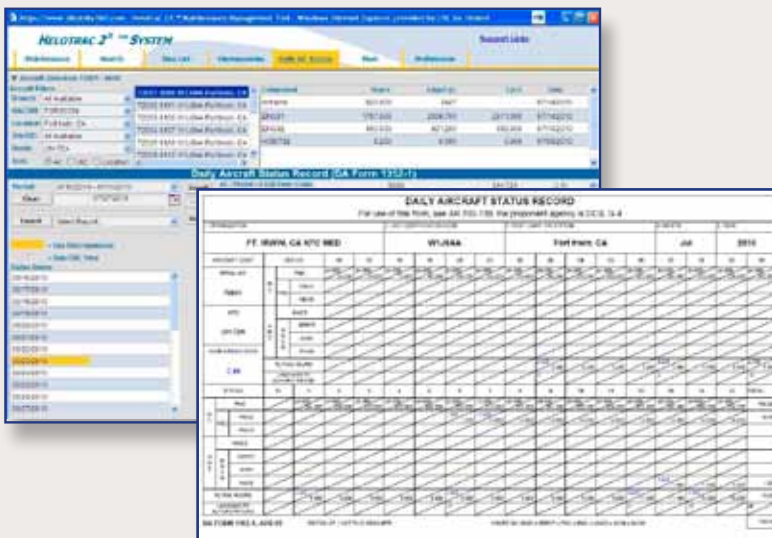

Global 24/7 Maintenance Management

The new HELOTRAC 2X™ System records, manages and reports essential information for the efficient and safe operation of your aircraft. It allows you to access aircraft compliance information pertaining to inspections, life limited parts, overhaul, Alert Service Bulletins, Airworthiness Directives and more.

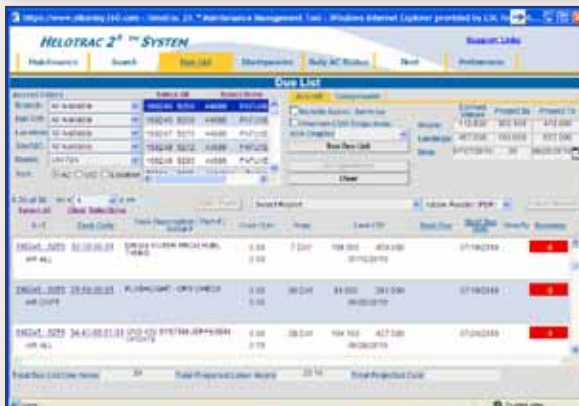

How it Works

The HELOTRAC 2X™ System is completely web based. There are no software installations or downloads required. The system is accessible from any internet-enabled computer and at any time. Simply log in with your password to the secure system for your latest maintenance information.

Aircraft Readiness Reporting

Maintenance Due List

HELOTRAC 2X™ System is currently being used on the UH-72A Lakota and can be utilized on other aircraft.

Features

- > Aircraft Readiness Tracking (DA Form 1352-1)
- > Spare Parts Ordering
- > Discrepancy Management
- > Scheduled and Unscheduled Maintenance Tracking
- > Maintenance Due Projections
- > Maintenance History Log and Archival

Benefits

- > Web accessible – anytime, anywhere
- > Real-time aircraft status
- > Allows integration to Health Usage Monitoring Systems (HUMS)
- > Timely database and service bulletin updates
- > Fully integrated parts ordering system
- > Faster screen navigation
- > Ability to print reports in PDF, Word, Excel, and XML files
- > Scalable to large fleets - anything from two to 2,000 aircraft
